

FREE **SESAME STREET** Resources to Build Children's Social and Emotional Skills

Your school has agreed to be part of a new project Sesame Street is launching called **Building a Connected Community**, which means you have the opportunity to receive a FREE online training and additional resources to help 4-year-old children in your classroom develop their social and emotional skills.

This is a great opportunity to...

- Connect with other **early learning educators** via the built-in online forum.
- Receive a diverse range of **free resources on social and emotional learning**.
- Get **additional PD hours** (proof of completion provided at the end!).

- **Topics covered:** how to promote children's prosocial skills, how to foster a sense of belonging, preparing for transitions... and more!
- **Length of Training:** 20–30 minutes/week for 10 weeks
- **Timeline:** You will be randomly assigned to either participate in fall 2023 or spring 2024.

We will ask all participants to help us find out whether this training is working for you and your classrooms.

Specifically, we will ask you to help us gather feedback by:

- Sharing information about this study with caregivers and families.
- Completing two short surveys at two time points. **You will get \$30 for each survey** as a thank you for your time! Please refer to the FAQ for more information!

Thank you so much for considering supporting early childhood research!
